

# CASE STUDY

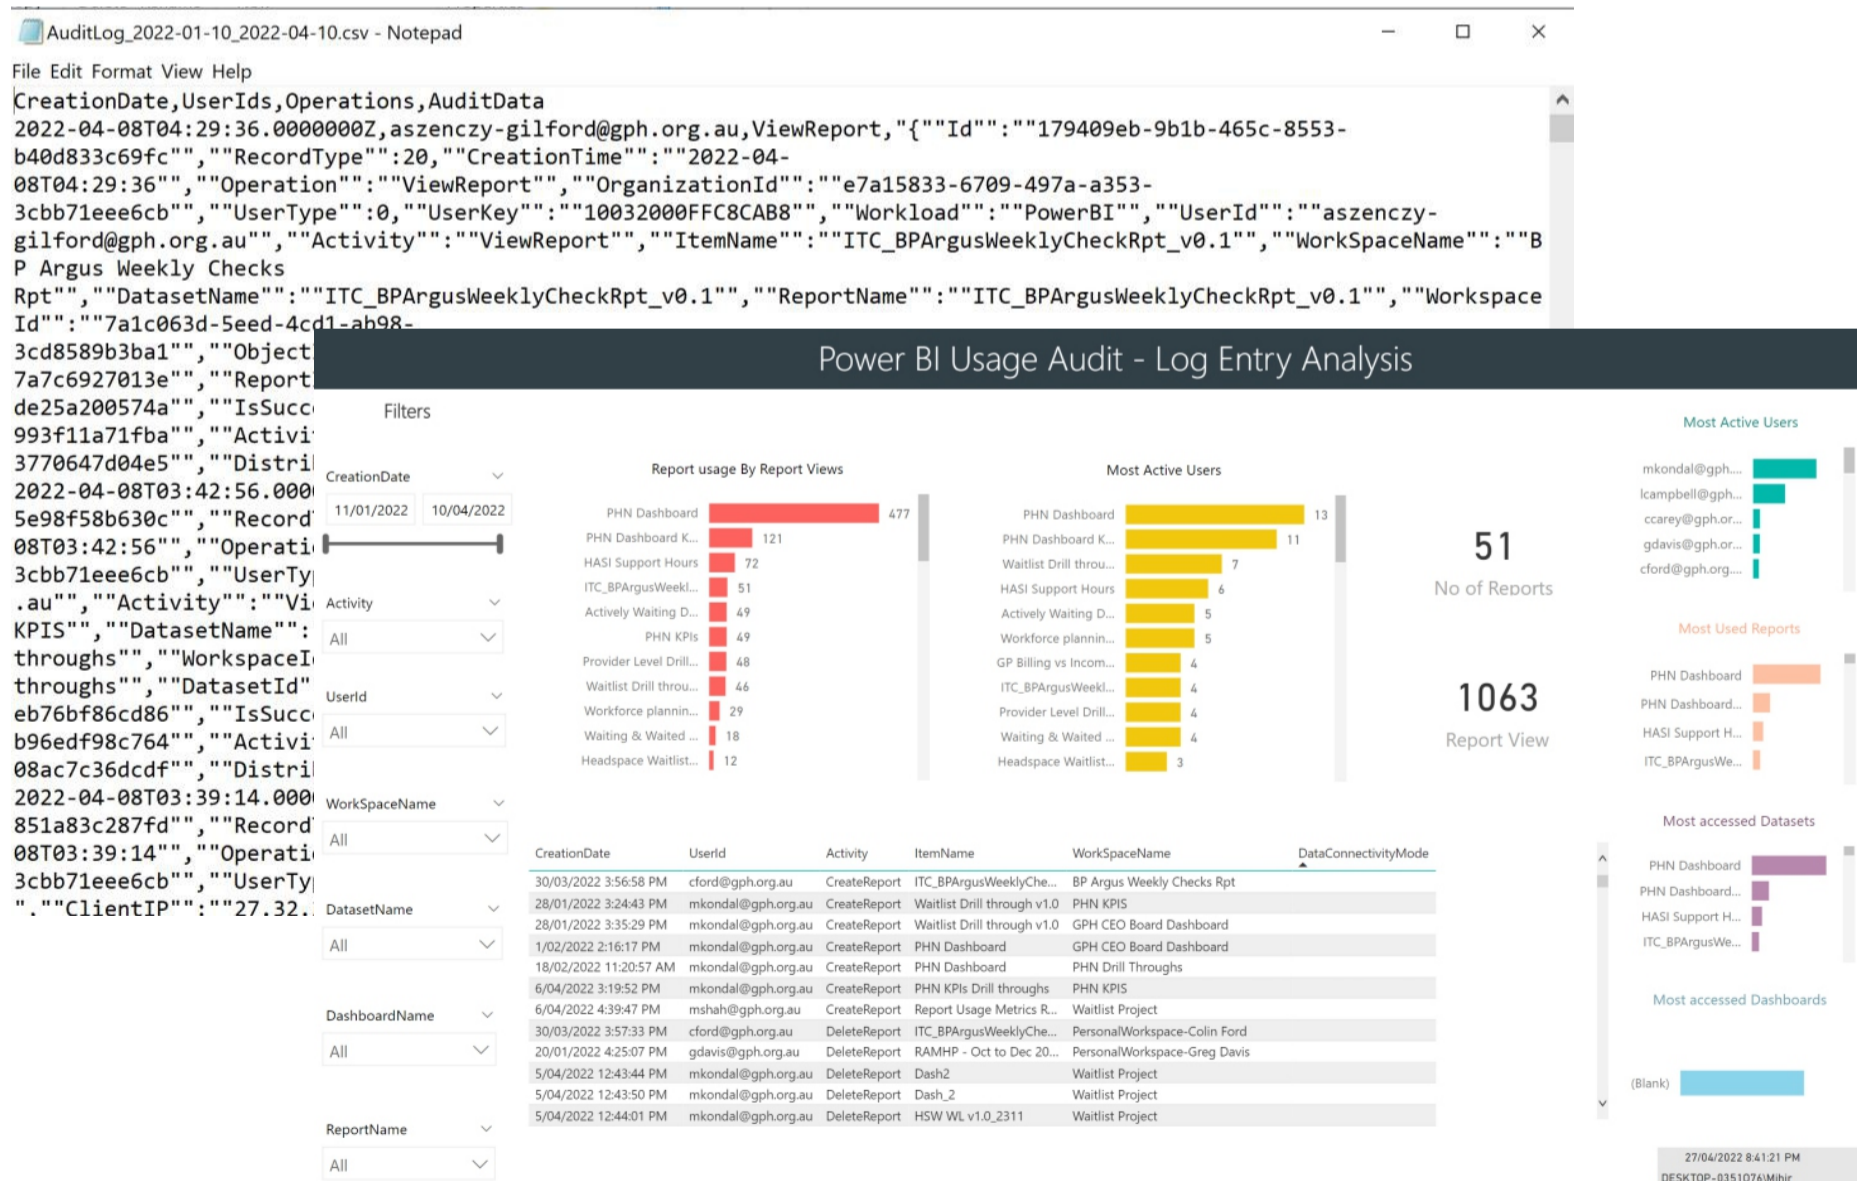

## Data Governance Reporting

**Client:**  
Government and Private Sector

**Business Problem:**  
Helps to priorities and identify reports/data models based on actual data usage. Also mandatory for few organization from data governance perspective

**Solution:**  
Built a Power BI report based on Power BI Audit logs

- Outcome:**
- Identified unauthorized report usage
  - 40% of legacy reports were descoped from Data Migration based on actual usage
  - Reduced 30% of Power BI Pro licenses

**Power BI Usage Audit - Log Entry Analysis**

**51**  
No of Reports

**1063**
